I remind you that we need to know :

# storage

There will be storerooms in the center research atmospheric:

- In the main building of the atmospheric research center (garage, third floor)
- In the chemical room (In front of the meeting room)
- In the room “assos” (at one hundred meters of the center)
- In the mechanical rooms (at one hundred and fifty meters of the center)

There are more than three hundred square meters of storage but the priority will be given to the measuring instruments which must be sheltered
