

Access by car at « Centre de Recherche Atmosphériques » (CRA)

Physical address of the site:

8 route de Lannemezan, 65300 Campistrous

Standard: 05 62 40 61 00 (dialed from France), 33 5 62 40 61 00 (international call)

- From Toulouse, take highway A64 (direction: 'Tarbes' and 'Foix').
- Keep A64 for about 110 km.
- Exit highway A64 at « Lannemezan ».
- At the first round, turn right to « Lannemezan » downtown.
- Follow this road, and go straight through 3 more rounds.
- At the next round downtown (close to the city hall), turn left.
- Leave 2 roads on your right and take the descending road on your next right (before a left turn of your current road, in the direction of Campistrous, Houeydets, Lagrange and Trie).
Follow this road down and then back up. When you leave a road on your left (toward Lagrange), keep your road on the straight line for about 500 m.
- You will pass a band of woods on your left side and a field. Turn on your next left, you will see some small houses and a line of garages.
- Enter the CRA and go straight to park on the parking lot, near the main bigger building.
The meeting room is in the hall.

(If you missed the entrance of the site, you will see a grain elevator on your left and a road toward the village of Campistrous on your right. Turn over then, and turn right a few hundred meters later at the CRA.)
